Health care reform, also known as the Affordable Care Act (ACA), established metal levels to indicate the value of your insurance coverage: platinum, gold, silver and bronze. All plans cover the same essential health benefits, but your cost share is different.

Small group plans are categorized by metal levels. Find out what type of plan is right for you.

**Platinum**: This is the highest level with both the highest premium and the richest benefits. Good for people who frequently receive medical services and are willing to pay more each month for the lowest ongoing health care costs.

**Gold**: Gold has a higher level of benefits than silver but also a higher monthly premium. Beneficial for people who receive medical services regularly and who are okay with a higher monthly premium in order to have more costs covered.

**Silver**: This level has slightly higher monthly premiums than bronze but also richer benefits. Beneficial for people who want to keep monthly premiums and out-of-pocket costs balanced.

**Bronze**: This level has the lowest monthly premium but also the highest out-of-pocket costs. Beneficial for people who prefer lower monthly premiums and don’t expect to need a lot of medical service.
