

Generic Smart

Minimum Value Generics (MVG) Listing

Effective October 1, 2022

Did you know that the price of certain generics has increased tremendously over the last few years, and in some cases, the price is now greater than the equivalent brand? We've kept a close eye on these trends and in response have developed new, innovative strategies for our clients and members to save!

With Magellan Rx Management's Minimum Value Generics (MVG) program, high-cost generics that have lower-cost alternatives available will be identified to allow clients to exclude from their benefit. Some states require dispensing of generics if available on the market. This program would not be recommended for those states.

MVG Drug Listing
