

Instructions for Fillable PDF

Web Browser Settings

The default settings of a web browser should allow for the completion of PDF web forms.

If you have difficulty displaying the PDF form, please ensure that you have [the latest version of Adobe PDF](#) (or another PDF reader) installed. Also, see troubleshooting tips below.

- Try disabling toolbars, pop up blockers, ad blockers, etc. Browser add-ons can sometimes interfere with normal web usage. Follow the links below to reset your browser settings to default.
 - [Reset Internet Explorer Settings to Default](#)
 - [Reset Chrome Settings to Default](#)
 - [Reset Firefox Settings to Default](#)

Troubleshooting tips for Adobe PDF fillable form issues:

- Update to the latest version of your Adobe PDF reader program. Users must have Adobe Reader 8 or later. [Install the latest version of Adobe Reader here.](#)
- Make sure that the Adobe security settings allow form filling. (See File > Properties > Security.)
- Make sure that the PDF includes interactive, or fillable, form fields. Sometimes form creators forget to convert their PDFs to interactive forms, or they intentionally design a form you can only fill in by hand. If you can't type in the form fields, then the fields are probably not interactive.
- Check for additional capabilities and restrictions in the purple document message bar, just below the tool area.
- If the form creator enabled additional capabilities, then the Document Extensions panel (View > Navigation Panels > Document Extensions) is available. You can open the panel to see what else you can do with the form. For example, you might be able to save and print data, add comments, and digitally sign it.
