## TRANSITIONAL PLANS

Per recent guidance from the Centers for Medicare & Medicaid Services' Department of Health and Human Services (HHS), "Grandmothered" or "Transitional" plans will be allowed an additional extension.

In other words, small group plans considered "Grandmothered" or "Transitional" can keep their plan through December 2019.

According to HHS, the additional one-year extension is intended to smoothly bring all non-grandfathered coverage into compliance with all applicable ACA requirements.

The extended transition relief only applies with respect to small businesses with coverage that has been continually renewed since 2014, under the previous transition guidance. It does not apply with respect to small businesses that obtained new coverage in 2014 or after. All new plans must comply with the full set of ACA reforms.

Also, as required under the previous transition policy guidance, health insurance issuers that renew coverage under this extended transitional policy must, for each policy year, provide a notice to affected small businesses. Brokers with clients on "Grandmothered" or "Transitional" plans will receive renewal notices that reflect the additional one-year transitional relief extension. Please contact your Broker/Client Relations Representative with any questions.
